

INDUSTRIAL FURNACE VACUUM PUMP REMANUFACTURING

RELIABILITY. PERFORMANCE. UPTIME.

Vacuum equipment remanufacturing for heat treatment and metallurgical applications.

INDUSTRY-BEST
**TWO-YEAR
WARRANTY**
FROM INSTALLATION

50+ YEARS

Vacuum service experience

OEM-LEVEL TESTING

Documented performance

LEGACY SUPPORT

Keep critical assets running

IN-HOUSE MACHINING

Control cost and lead time

CORE FURNACE VACUUM EQUIPMENT

Critical mechanical vacuum support for furnace and metallurgical processes

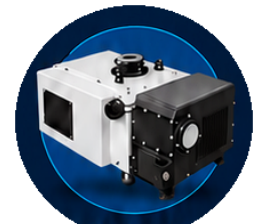

ROTARY PISTON PUMPS

ROOTS-TYPE BLOWERS

DRY PUMPS

ROTARY VANE PUMPS

A CONTROLLED PROCESS. A DOCUMENTED RESULT.

REMANUFACTURING PROCESS

Clear checkpoints from arrival through final verification

1

DISASSEMBLY & CLEANING

EPA-compliant cleaning systems prepare components for detailed evaluation.

2

INSPECTION & QUOTATION

Certified technicians compare mechanical, electrical, and diagnostic components with original OEM specifications. Consumables and nonconforming major components are quoted before work proceeds.

3

REMANUFACTURING & ASSEMBLY

Major components may be restored in ADVACO's in-house machine shop before reassembly in dedicated manufacturing cells.

4

TESTING & QUALITY CONTROL

Proprietary systems generate graphical data certifying ultimate vacuum and pumping speed. Software is verified and reset as applicable, followed by helium leak testing.

STOKES VACUUM REBUILD SPECIALISTS

Specialized rebuild support for Stokes 148/149 rotary piston pumps and Roots RGS-615 blowers. Major components may be remanufactured when possible to reduce replacement-parts cost.

SERVICE SCOPE

Mechanical vacuum

ROTARY PISTON PUMPS

ROOTS-TYPE BLOWERS

DRY PUMPS

ROTARY VANE PUMPS

High vacuum & diagnostics

DIFFUSION PUMPS

TURBO PUMPS

SCROLL PUMPS

HELIUM LEAK DETECTORS

Furnace service advantages

Fast turnaround, extensive parts inventory, legacy equipment support, and ISO 9001:2015 registered quality controls.
